San Nicolas Main Streets Lights Not Working Again!!!!!!!!!!.

After months of complaining that our main streets were to dark,as non of the street lights worked, we were happy to see a start of a few new street lights at the beginning of the main street we felt great we said" it's a start" however these are not working again, not sure if we got defected products to shut us up to buy time for election, or lack of maintenance of these lights that we are constantly having these problems? whatever the case safety should be first in these trying times.
